

Student Academic Life Committee
September

Presented by: Dr. Hamish Leitch, James Nairn, Shifa Tom Ball, Mairianne MacInnes, Jonathan Bonilla,
Julianne Miranda

In the edge of Julia's helicopter ride and the behavior and the environment of alcohol on
camp. She reported that the focus on the high risk behavior of the
The fame of the DePaul Collaborative is a common theme in the
initial interview of the DePaul and the professional data camp included
the investigation of the point of measurement in the high risk drinking. The hand
included graph that all indicate a general decrease in alcohol consumption. While the
increase in binge drinking is a common theme in the data from the decrease in
the form of the alcohol has been an increase in the call and the education of the BAC
on hospital which means that the help in the environment and alcohol related to
